# Bid Structuring

## Large project bonds and structuring

### Structuring winning bids

The concept of preparing bids for either a business acquisition, a merger, a large tender project ( Private or Public) often has many factors to considers such as:

1. What form of bid bond will be submitted - will it be cash, or a bid bond through an insurance issuer?
2. What is the funding arrangements to ensure equipment and other acquisitions that will be used in the contract?
3. How much capital is required if it is an acquisition ?
4. Will there be a requirement for retention fees, and will you leave cash from the contract payments , or move with an entire Bond through an insurance issuer to reduce cost and risk?
5. How do I structure with lowest risk profile.

Weaver Capital is experienced in structuring bids and arranging low cost bonds - and project funding which reduce risk and cost and ensure best solutions for your business opportunities.
