

Commodity solutions

Treasury Services and Bridging Finance

Trading in commodities often is based on LC's that have to be negotiated for payment based on fixed terms - while the commodity supply value can may require earlier payments that could complicate such a transaction.

Weaver Capital provide tailored solutions to ensure successful value creation in this process

About us

Weaver Capital is a provider of specialist financial services and commodity trading solutions to the mining industry

Treasury Services

Weaver Capital - through a fully fledged merchant bank offer access to treasury services that provide for exchange handling of LC denominated currency into Rands - as well as hedging and other services to ensure effective management of your LC arrangements during the commodity trading cycle We provide solutions for both LC negotiation, Issuance, and various other treasury services.

Speak to us today for professional advice

Bridging Finance

Trading in commodities often require payment of transporters and FOT mining contracts for delivery at a designated point - while additional costs are incurred before FOB Letters of Credit are negotiable. For this interim bridges are required against securities that can be leveraged. Weaver Capital provide a complete solution through a fully fledged Merchant Bank to provide bridging for:

- FOT up front payments
- Transport payments during the delivery cycle
- Other trade related eventualities

This allows for effective trade financing to ensure successful negotiation of commodity trades
